RUSSIA'S REPLY IS COMPLETED

WILL BE HANDED TO JAPANESE TO DAY

Russia Takes Exception to Indemnity and Cession of Sakhalin—Surprise Created in St. Petersburg.

Portsmouth, N. H., Aug. 11.—Russia's reply to the Japanese terms of peace will be delivered by Witte to Komura tomorrow morning. The reply is written, there being two texts, one in French, the other in English. Upon the two crucial points, indemnity and cession of the island of Sakhalin, the reply is an absolute non-possimus. Other points are accepted as a basis for discussion, while still others are accepted conditionally. The reply is rather long because in enumerating the conditions upon which the discussion is admitted and those upon which consideration is declined reasons and arguments are given. The Japanese plenipotentiaries are expected to ask for an immediate adjournment to examine and prepare this reply. Witte will probably intimate that the Russian plenipotentiaries expect the Japanese to display as much expedition as the Russians have shown in the preparation of their response. Monday, therefore, is expected to be the day on which the real discussion will begin. Neither side wants to indulge in diplomatic sparring. The time for fencing is over and less than a week must elapse whether a basis of peace is possible.

The tactics of the Japanese are inscrutable. Not the remotest clue comes from behind their closed doors whether they are prepared to make substantial concessions. Silence and secrecy are their watchwords. But if conditions as submitted constitute their last word, the hope of peace may be regarded as having disappeared. If the feeling reflected in Russian circles is a true criterion, and that no substantial concessions on the main issues will be made is the belief both in Russian and Japanese circles.

To night in the inner camps of both plenipotentiaries: the deepest pessimism reigns. Witte, it is positively known, believes the prospects of agreement are so remote as to be practically nil. That the Japanese terms, in so far as they touch the main points, will not be withdrawn or materially modified is the opinion of the most competent Japanese authority on the ground, who will talk for publication, namely, Jūjō Kumpei Matsumoto, a member of the Japanese parliament; who is here as financial emissary of the Japanese, and who is in close communication with Komura and Takahira.

"The conditions in their broad outlines," said the Associated Press to night, "have been substantially known to us in Japan and the Russians will be very much mistaken if they imagine the Japanese will not insist upon the two chief points—the indemnity and cession of Sakhalin. To surrender either is impossible. If Komura should yield on these points public feeling is so strong that he would be murdered upon his return to Japan. We must be reimbursed for the cost of the war, and we have national claims to Sakhalin, which we have never forgotten."

"The conditions are based on the original discovery of the island by a Japanese and its seizure by Russia."

"Japan has no desire to humiliate Russia more than is necessary," he continued, "and even now is seeking to avoid wounding Russia's susceptibilities, but public opinion in Japan is absolutely so firm upon the main issues that no Japanese statesman could possibly dare to withdraw the terms which have been proposed as the basis of peace."

"The Japanese government has only asked what, according to Japanese ideas, are considered most moderate terms. A strong party in Japan favored claiming not only Sakhalin, the Liao Tung peninsula, protectorate over Korea and the evacuation of Manchuria, but also the cession to the Japanese of the territory around the mouth of the Amur."

One of the biggest features of the day at the Worth hotel was the publication of the Japanese terms by the Associated Press. Efforts were made to discredit their authenticity, but neither the Japanese nor Russians would discuss the subject and before nightfall those interested became convinced of their accuracy. Both Sato and Korostovitz, the spokesmen of the respective sides, declined to say anything officially about the terms, which, by mutual agreement, were to be kept secret, but Korostovitz, in the name of Witte, did not hesitate to confirm the accuracy of the Associated Press statement this afternoon that the Russian reply was completed and would be delivered tomorrow morning. He went on to the extent of saying it would be an agreement on some points, conditional agreement on some and rejection of some of the terms. He also took occasion to confirm the statement that Witte had received no instructions from St. Petersburg regarding the nature of the reply to be given, as his powers were ample.

TRAGEDY AT ROCK ISLAND.

Rock Island, Aug. 11.—After a spree August Drowick shot and killed his wife to day and committed suicide.

TERMS TOO SEVERE

Japan's Terms Cause Indignation at St. Petersburg—Are Opposed by All.

St. Petersburg, Aug. 12, 2:56 a. m.—News of the speedy completion of Witte's reply came as a surprise to the Russian public, as delay, at least until Monday, was anticipated to permit consultation at Peterhof. Though Witte has ample powers to draft the reply at Portsmouth, the foreign office shared the view that the response would be withheld until Monday. Witte's initiative and decision have evoked the admiration of Russians, accustomed as they are to delays in matters of a similar nature.

Japan's demands, as predicted, have served to array the Russian government and people under the same banner for the first time since the beginning of the war and it is evident Witte will find almost solid support at his back in whatever answer he may make to Komura's communication.

The government permitted and encouraged the publication of the Associated Press dispatches giving Japan's conditions, while like a fiery cross rallied Russia's disunited clans, reactionary, conservative, liberal and radical. With scarcely an exception every voice is raised in urging the government to hold against Japan's principal demands. The Associated Press talked yesterday with leading men of various classes and all declared continuance of the war would be better than acceptance of such terms. The same spirit is manifested in almost every newspaper office. Radical organs range alongside of the Novye Vremya, while the Russ declares: "If these are Japan's conditions, all hope of peace has vanished."

Indignation also is growing over what is regarded as a doubtful proceeding on the part of the Japanese with regard to their credentials, and many are asking what is the real reason underlying their action.

To day has been given over in the foreign office to a literal and careful deciphering of the Japanese terms and putting them into proper form for transmission to the emperor. Little, however, has been accomplished in the way of formulating an answer embodying advice to Witte. The Japanese terms in detail were not contained in one message, but comprised several, all of which had to be deciphered, and it was comparatively late in the day before the matter was finally in shape for serious and profound examination. Consequently examination of conditions as a whole could not begin until more than twelve hours after the arrival of the first message.

"The terms were sent to the emperor at Peterhof to day and although communications passed between the foreign office and Peterhof during the day Count Lamdorff did not go further. Despite the fact that Witte has sufficiently broad powers to give Russia's reply to Japan, it was delayed at the foreign office to day that he should have to wait before so doing until advised from here after the terms had been thoroughly considered. Their examination is being pushed with the greatest rapidity consistent with the gravity of the matter in hand. While the Associated Press was informed this morning in several quarters, though not officially, that the terms upon first reading appeared to be unexpectedly excessive, later in the day it was said the first conception might easily be erroneous and that a more careful study of the terms showed they were not so severe as at first thought."

SURPRISE AT ROME.

Rome, Aug. 11.—Much surprise was felt here to day at Japanese peace terms becoming known and high compliments were paid the Associated Press for its exclusive dispatches on the subject. The opinion is expressed in Rome that the terms are rather severe on Russia, but that if the Japanese are sufficiently firm Russia will end by accepting, as there is nothing in them, it is thought, derogatory to Russian pride, although both "reimbursement" and territory are demanded. The view in military circles is that Russia intends to do the best possible for herself, but will accept in the end. In general the Japanese terms are less exorbitant than expected here and hope is expressed that an agreement may be reached.

CONSIDERED HARD.

Paris, Aug. 11.—The Japanese peace conditions, exclusively communicated by the Associated Press from Portsmouth, produced a rather depressed feeling in official quarters, the terms being considered somewhat hard. It is, however, the prevailing view Japan's last word has not been spoken.

NOT EXCESSIVE.

London, Aug. 11.—The Japanese peace terms, exclusively given in Portsmouth dispatches of the Associated Press, are not considered excessive by the British government, nor being sensibly reducible in the main points.

FROM BERLIN.

Berlin, Aug. 11.—The foreign office, without giving judgment on the equibleness of the Japanese peace terms, believes negotiations will continue until an agreement is reached. Although conditions are considered extreme, the prevailing view is Russia cannot be expected to accept them, but that they are not an impossible first demand.

RUSSIANS SURRENDER.

Tokio, Aug. 11.—It is officially announced that 118 Russian officers and men surrendered at Niuro, Sakhalin Island, Aug. 8.

AWAIT RESULTS OF CAMPAIGN

PEOPLE OF NEW ORLEANS HAVE PATIENCE

Surgeon White Not Surprised at Increase in Number of Fever Cases—Surgeon Considered Immune a Victim of Disease.

New Orleans, Aug. 11.—Official fever report to 6 p. m.:
New cases, 61.
Total, 808.
Deaths, 9.
Total, 133.

With Surgeon White of the marine hospital service frankly expressing no surprise at the increase in the number of cases of fever and expecting that for some time to come there will be a large quota brought to light daily, the people of New Orleans have made up their minds to await in patience the results of the federal campaign, which is now fairly in swing.

An unexpected blow was struck at the marine hospital staff to day when one of the men sent here to assist in the fight against the disease was himself stricken. The victim is Surgeon Berry, who came from New York. He was one of the first to reach New Orleans and because he had been through the Cuban campaign and had had the fever in Texas, he was considered immune and was put in charge of the work in the originally infected area, where the fever has raged most fiercely. He was taken ill yesterday and to day his case developed into one of yellow fever.

There were eighty-three patients at the emergency hospital to day. Earlier in the campaign when the number of cases treated there was considerably fewer, the death rate was higher, but it has now been considerably lessened, and daily patients are being discharged as cured.

In the presence of a congregation of mourners that partly filled the cathedral and with some fifty priests participating in the service, mass was said to day for Archbishop Chapelle. Interment in the crypt of the cathedral followed.

NEW ORLEANS BANANAS BARRED.

Calro, Aug. 11.—Secretary Egan of the Illinois state board of health announces that Surgeon General Wyman of the United States naval hospital service has ordered discontinuance of banana shipments from New Orleans. This is a relief to the inhabitants of southern Illinois, as the banana trains have been worrying them for some time. Banana trains from Mobile will be admitted and messengers can accompany them, if they hold certificates.

Dr. Lovewell reports he has established quarantine service at Thebes, Dr. Galand has the quarantine at Brookport and Metropolis in charge and will inspect every one that enters Illinois from this place.

HOCH'S CASE

Still Lacks Funds to Pay Expenses of Appeal.

Chicago, Aug. 11.—"Bluebeard" Johann Hoch's case may not be appealed and his second reprieve may have been in vain. The sum requisite to pay for printing abstracts and briefs required by the rules of the Illinois supreme court, it was stated to day, is still short \$400. Money raised by subscription, it is reported, will be returned to donors.

NEW WIRELESS RECORD.

Washington, Aug. 11.—According to a report received at the navy department ships of the North Atlantic fleet have communicated with one another by wireless telegraph 252 miles. This is announced as the greatest distance at which wireless messages have been sent from ship to ship in the navy.

THE TEAMSTERS

Stormy Session Held by the Brotherhood.

Philadelphia, Aug. 11.—This afternoon's session of the Brotherhood of Teamsters was the stormiest in the history of the union. Physical violence was several times narrowly averted. Nothing was accomplished and the convention adjourned until tomorrow. The disorder was the result of a motion to endorse the Chicago strike. As soon as the motion was made there was an uproar. Men in all parts of the hall began shouting and shook their fists at one another and both sides accused each other of bad faith.

President Shea was on the floor several times to defend himself against accusations connected with the Chicago strike. Shea admitted recommending a change in the records of the Chicago union, but declared he did so to prevent some of the members being indicted.

DEATHS.

Washington, Aug. 11.—The death of Rear Admiral E. K. Bonham, retired, at Lake Mahopac, N. Y., was reported to the navy department to day.

FOR KILLING OF BOY

Philadelphia Automobile Driver Who Caused Death of Child Sentenced to Prison.

Philadelphia, Aug. 11.—William Henry Myers, a chauffeur, was to day convicted of involuntary manslaughter and sentenced to eighteen months imprisonment for running down and killing 5-year-old Eldon Sarver on the night of June 26. After running down the boy Myers increased the speed of the automobile and escaped, but was arrested several days later. He pleaded ignorance of fatal result of the accident until he read newspapers, and then fear of consequences prevented him surrendering to the police.

SUICIDE OF PITTSFIELD MAN.

Dallas, Tex., Aug. 11.—William Heck, formerly of Pittsfield, Ill., committed suicide yesterday by shooting a pistol bullet into his mouth. The ball went out at the top of his head. Heck, who had been sick for several days, asked his wife to telephone for his physician. Mrs. Heck stepped into an adjoining room and soon heard a pistol report. Hurrying back, she found her husband dead.

The body is being held at the morgue awaiting replies to telegrams sent to Heck's parents and other relatives at Pittsfield.

MEMORIAL TO SAILORS

Dead Marines of the Bennington to Be Honored—Secretary Bonaparte to Aid.

Washington, Aug. 11.—Secretary Bonaparte has authorized the use of his name as a member of the advisory board of the Bennington Memorial association of San Diego, Calif., which proposes to erect a modern sailors' club house at San Diego as a memorial to those who lost their lives as a result of the explosion on the Bennington.

AMATEUR OARSMEN.

Baltimore, Aug. 11.—The annual regatta of the National Association of Amateur Oarsmen commenced to day. The events were witnessed by from fifteen to twenty thousand people. The events completed to day and winners were:

Senior pair-oared shells—Sawawhaki Boat club, New York; 10:19.
Senior four-oared shells—Sawawhaki Boat club; 9:38.
Intermediate eight-oared shells—Argonaut Rowing club, Toronto, Canada; 8:46.
Association senior single sculls—F. Shepherd, Seawanhaka club, Brooklyn; 10:32.
Senior double—Nonpareil club, New York; 10:25.

EGAN AND SAWYER

Survive to Battle for the National Golf Championship—Yesterday's Playing.

Chicago, Aug. 11.—After a day of the most sensational golf ever seen in a national tournament, Champion H. Chandler Egan and D. E. Sawyer, also a Chicagoan, survive to play the finals over thirty-six holes at the Wheaton links tomorrow. The east for the first time since the national championship was instituted ten years ago was left without representation in the semi-finals this afternoon. Champion Egan gained the right to defend his medal by going through the third and semi-final rounds like a marvel, putting out Fred Herreshoff, of Ekwano, in the morning 2 up 1 id play. After defeating Herreshoff, Egan again removed Herold Webster, of Toledo, by the crushing defeat of 7 up 5 to play.

It was left for the other side of the draw to furnish the greatest blow to the east, when W. C. Fownes, Jr., of Pittsburg, eliminated former National and British Champion Walter J. Travis in a hard battle that was lost only at the nineteenth hole. In the afternoon Fownes was unable to meet successfully the great golf put up by Ned Sawyer and was defeated by 2 up.

Weber early in the day made himself a factor by defeating E. M. Byers, of Pittsburg, twice runner-up in the national tourney, 3 up 2 to play, while Sawyer's victory over A. L. White removed the only eastern man left and holder of the intercollegiate championship by a score of 3 up 1 to play.

LAND WITHDRAWN.

Washington, Aug. 11.—The commissioner of the general land office has withdrawn from entry 115,000 acres of land in the Waterville, Wash., land office. The land is to be used in connection with reclamation works.

RACES POSTPONED.

Buffalo, Aug. 11.—The Grand circuit races to day were postponed on account of rain.

DEATHS FROM HEAT.

Chicago, Aug. 11.—Four people died in Chicago to day as a result of the heat, and twenty-three others were prostrated. The mercury did not rise above 90 on the street level, but the high humidity made the day exceedingly uncomfortable.

TRADE REPORTS CONTINUE GOOD

STIMULATED BY EXCELLENT CROP ADVICES.

Manufacturing Plants Are Active, Iron and Steel Trade Making Progress and Railway Earnings Increasing.

New York, Aug. 11.—Bradstreet's report of trade conditions says: Fall trade, stimulated by excellent crop advices, continues to expand at wholesale. Increased purchases, wider range and selection and some improvement in collections are noted. Lines noting special activity at the west are dry goods, notions, hardware, lumber, groceries and shoes. One-half of the 1905 wool crop has been sold, worsted manufacturers report orders booked for six months and shoe and leather trades are doing increasing business at steadily advancing prices. Cotton goods sellers cannot begin to satisfy requests for prompt shipments, finished iron and steel show great activity and the industrial situation reveals few important flaws. Prices of cereals and cotton show some easing on better crop reports or increased movement, but taking staple prices as a whole the level of value is at the highest point reached in the midsummer for fifteen years past. Farmers are busy on harvest work and retail trade is naturally quiet, but increased number of fall buyers is noted in all leading markets.

Advices are that the corn crop of the south will be the best ever made and in the southwest the crop is well high assured. In Illinois, Indiana and Ohio dry weather or heat has caused firing and rain is needed. In the northwest spring wheat is being cut, with little or no complaint as to rust damage and a good wheat crop is looked for in the northern Pacific states.

Wheat, including flour, exports for the week were 855,000 bushels, against 1,281,000 last year; July 1 to date, 5,239,000 bushels, against 7,855,000 a year ago.

Corn exports for the week were 1,152,000 bushels, against 655,000 a year ago; July 1 to date, 5,500,000, against 3,270,000 in 1904.

DUN'S REPORT.

New York, Aug. 11.—Dun's review says: Trade reports are less uniformly favorable, but adverse factors are of a temporary nature and the net result for the week is satisfactory. Numerous strikes have occurred, exerting the customary pernicious influence over business, and yellow fever is restricting southern trade. On the other hand, thermal conditions have facilitated retail trade, crop prospects have greatly improved, and out-of-town buyers are numerous in all leading markets. Manufacturing plants are increasingly active, textile mills still occupying the strongest position, while shoe shops are not making concessions to get business.

Iron furnaces and steel mills make progress, but less rapidly. Lumber mills and dealers are having an exceptionally busy season. Railway earnings in July were 7.4 per cent greater than in the same month last year, and foreign commerce at this port for last week showed an increase of \$3,917,439 in imports, while exports decreased \$1,908,227. Little change occurred in the financial situation, rates ruling easy, while prices of securities have risen close to the highest point on record. Bank exchanges at New York for the week were 47.8 per cent larger than last year and at other leading cities the increase amounted to 14.0 per cent.

Failures this week were 222 in the United States, against 223 a year ago.

BANK CLEARINGS.

New York, Aug. 11.—The total bank clearings compiled by Bradstreet for the past week were \$2,222,940,556, an increase of 33.6 per cent compared with corresponding week last year.

KING'S SPEECH

Read When Parliament Was Prorogued—Refers to Peace Negotiations.

London, Aug. 1.—Parliament was prorogued to day. The lord high chancellor, Earl Halsbury, read King Edward's speech, in which he referred to peace negotiations and the crisis in Sweden and Norway. Regarding peace negotiations, the speech says: "It is my earnest hope that they may lead to lasting and honorable peace."

Concerning the Swedish-Norwegian situation, the speech: "Dissolution of the union between Sweden and Norway apparently was imminent. I am confident a settlement will be arrived at, which will be acceptable to both countries."

LOST IN MOUNTAINS.

Missoula, Mont., Aug. 11.—Mrs. Harry Thompson, wife of ex-Sheriff Thompson, Mrs. William Wallace of New York, Mrs. Samuel Waters of Missoula, a girl cook and a little boy are lost in the Lolo mountains, where they had gone for an outing yesterday. Searchers have been sent out after them. Some fears are expressed for their safety, as forest fires are raging along the divide.

TALKS TO NATIVES

Secretary Taft Upheld the Administration's Policy in the Philippines.

Manila, Aug. 11.—A banquet given by natives to the Taft party to night attracted great interest, as it was expected Secretary Taft would outline the policy of the administration. For some time past the feeling among the natives has been that the administration was deviating from the McKinley policy and as a result there has been noticeable dissatisfaction among politicians with the insular government and also much unrest.

This attitude was met fearlessly by Taft, who upheld the administration's policy. When he finished his address he was loudly applauded. Taft said the American people are divided upon the Philippine question into three classes. One favors extension of American influence in the orient by purchase and conquest; the second believe the United States are trustees for the Philippines and must prepare that people to maintain the stable government now there; the third favors immediate independence for the islands.

"The second party," he said, "has for its chief exponent President Roosevelt. He believes it is the duty of the United States to prepare the Philippines for self-government. This will require a generation and probably longer and the form of self-government will be left to the individuals who will control the two nations at that time."

"It follows that the president—and he, himself, desires me to say this to the Philippines—feels charged with the duty of proceeding on this policy and maintaining the sovereignty of the United States here as an instrument of gradual education and elevation of the whole of the Philippines to a self-governing community."

Taft, in forceful language, stated that the Philippines who wish to rule this country must first learn the principles of democracy by first sending their children to the common schools before they can invite the United States to transfer the trust which has been thrown upon their shoulders. To make a self-governing and popular democracy, primary education, habits of greater industry and thrift must always be kept, he said, before the young patriotic Philippines.

"In a number of provinces," he said, "the people with the greatest difficulty avoid starvation. Now this is not due to ill soil or unfavorable agricultural conditions. All these are easily overcome by the industry which is manifest in Java and Japan. The foundation of a great nation like Japan is in the industry, thrift and intelligence of the people."

The secretary affirmed that a popular assembly would be formed, if no insurance exists in April, 1907. The administration's policy, he said, was the Philippines for the Philippines. If American officials were not in sympathy with this policy and the natives they would be recalled.

MYSTERIOUS DEATH

Edward Drouin of Peoria Found Dead in Hallway of His Home.

Peoria, Aug. 11.—Edward Drouin, formerly a wealthy and influential merchant of Philadelphia, was found dead in the hallway of his residence early to day. Drouin married a daughter of the late S. H. Thompson, a wealthy wholesale grocer of Peoria, and inherited his entire fortune, which since has been lost. When found his wife, apparently distracted by the death of her husband, was holding the feet of the corpse in the air, in order, she said, to allow the soul to escape. The cause of death is a mystery which the coroner is endeavoring to solve.

CHARGED WITH MURDER.

Grayling, Mich., Aug. 11.—Mrs. Naomi Albrecht, of Frederic, is under arrest charged with the murder of her two boys, 10 and 12 years of age. It is believed the boys were murdered to obtain \$50 life insurance on the lives of each.

MISSING YACHT.

Mobile, Ala., Aug. 11.—Fears are entertained here for the safety of Theodore Shonts' handsome yacht Marguadora, which left here a week ago for Greenville, Conn. No word has been received of her since she left here in a howling gale.

TERMS MADE KNOWN.

St. Petersburg, Aug. 11.—Japanese terms were known early this morning only to a very few of the highest officials, who carefully guarded their knowledge. Newspaper offices were informed of the terms through the Associated Press dispatches from Portsmouth and they rapidly became known.

Every step of the negotiations at Portsmouth is fully reported here. The reply of Witte to be presented tomorrow to the Japanese will neither be acceptance nor declination of conditions while Komura presented, but be an invitation to the Japanese to consider the terms placed. Some terms are satisfactory to Russia, but others must be modified or eliminated if there is to be an arrangement at this time.

THE DAILY JOURNAL 10c A WEEK.

ROOSEVELT AT CHAUTAUQUA

IS GREETED BY A LARGE CROWD

Passed Through New York, Pennsylvania and New Jersey on Return to Oyster Bay—Thousands Gather to See Him.

Chautauque, N. Y., Aug. 11.—President Roosevelt arrived here at 8:45 p. m. Some time during the night after the arrival of the president's train at Lakewood one of the secret service officers was robbed of a valuable watch while asleep.

At 7 o'clock the president appeared on the platform of his car for a breath of fresh air. Rain, which had been falling several hours, was then coming down in torrents. The Chautauque committee waited upon the president at 7:30. After exchange of greetings, the president was escorted to a private car on a trolley line and the short trip to the assembly ground began. As early as 8 o'clock ten thousand people assembled at the amphitheatre to secure seats.

At 10:43 the presidential party was taken for a drive through the grounds. The president was then escorted to the assembly amphitheatre, his way being strewn with flowers. When he appeared on the platform the president was greeted by ten thousand people with cheers and the Chautauque salute. Bishop Vincent introduced the president, who given an ovation.

THE RETURN TRIP.

Binghamton, N. Y., Aug. 11.—President Roosevelt on his return trip from Chautauque to Oyster Bay passed to day and to night through New York, Pennsylvania and New Jersey. At every station where a stop was made he was accorded greetings as affectionate as it was enthusiastic. Along the entire route this afternoon and the evening rain fell heavily, but the storm seemed to have little effect on the determination of the people to see the president and if possible to hear him speak. During the afternoon President Roosevelt made brief addresses from the rear platform of his car at Salamanca, Hornellsville, Elmira and Waverly. At Hornellsville the president touched effectively upon the horrors of the yellow fever epidemic now raging in New Orleans, expressing the greatest sympathy for the people of that city.

Every station on the line of the Erie railroad from Hornellsville to this point was thronged with people. At one or two places where the train slowed down, but did not stop, the president waved his hands to the crowd, which broke into cheers as the special passed. At Elmira, where a convention of volunteer firemen is being held, the president addressed his brief remarks particularly to them.

The president's train is scheduled to arrive in Jersey City at 1 a. m. There it will be sidetracked and the president will be afforded an opportunity to get a comfortable rest until morning. At 9:40 tomorrow morning the president is due to arrive at Oyster Bay.

NEGRO BURNED.

Dallas, Tex., Aug. 11.—A negro was burned at the stake at Sulphur Springs to day. The negro was charged with assaulting the daughter of a widow near Sulphur Springs. He was caught, chained and burned at a stake in the court house square before an immense crowd of excited citizens.

BARGAINS IN USED STEINWAY PIANOS.

If you know of anyone who wishes a very good piano at a moderate cost, he will be interested in the fact that just at the present time the well known music house of Lyon & Healy, Chicago, have a large salesroom filled entirely with used Steinway Uprights. These Steinways embrace a wide variety of instruments. All of them, of course, are genuine Steinways, and all of them are in fine condition, but there is a great difference in the cost. Some of these Steinways have had considerable use, and have been overhauled at the factory, and are now offered at very moderate prices indeed, while others are practically new and of course command within \$100 of the regular price.

Among these bargains of Steinways are quite a number of ebony finished instruments, several in rose wood and some in mahogany cases.

These Steinway Pianos will be sold either for cash or upon very easy monthly payments. Freight on an upright piano is only a matter of a few dollars. All of these instruments are fully guaranteed to be exactly as represented. The opportunity to secure one will undoubtedly be taken advantage of by the shrewd buyers in this vicinity.

A letter to Lyon & Healy, No. 10 Adams street, Chicago, will bring full particulars.

WATERWORKS MATERIAL.

Material for the new waterworks is being unloaded daily on the spur tracks running into the grounds leased by the company. The contract for the pumping station has not yet been let, and the figures submitted have been sent east to Mr. Mackey for his approval. The lowest bid was that of A. M. VanHouten, of this city, which approximated \$11,900.

SUGAR FAMINE NEAR AT HAND

Fever Scarcely Said to Be Cause—Scarcely Already Exists in North Texas Towns.

Port Worth, Tex., Aug. 11.—(North Texas) Texas is now sugarless. As far as Port Worth there is not a barrel of sugar obtainable in north Texas. No sugar is being quoted for immediate delivery by local jobbers. No orders to be filled under sixty or ninety days are being accepted for sugar.

The cause of this scarcity is the yellow fever situation in Louisiana, coupled with the fact that all refineries are from thirty to forty days behind in filling their orders. Even before the yellow fever quarantines were promulgated there was a scarcity of sugar.

"It is certain that we see no relief in sight," said one jobber. "Conditions that cannot be controlled by jobbers now dictate the movement of sugar. It is useless to speculate on what sugar would be worth if we had any in Port Worth, for the reason the market is now bare of sugar. Cane will become even a greater luxury, while unsweetened ice cream will doubtless be the thing in a few days."

TOWN LOTS.

Lots and acre tracts for sale on the Potts farm, adjoining city of Jacksonville on the west. Also two farms near Paris, Mo., one of 240 acres and one of 160 acres. See W. S. Jones, owner of properties, Hockenhull building, Jacksonville, Ill.

GAVE LAWN SOCIAL.

The social which was given by the Christian Endeavor society, of the Jordan Street Presbyterian church Friday evening on Harrison Bros' lot at the corner of North Prairie street, and West Lafayette avenue, was a success in every particular. A large crowd was in attendance and everything sold well. The grounds were well lighted with electric hand-lights, and Japanese lanterns, and were decorated with red lighting. Music was furnished by Edward Taylor on a graphophone. The success of the affair was largely due to the efforts of the following committee: H. J. Vasconcellos, chairman; John DeFreitas, Edward DeFreitas, Miss Addie DeFreitas and Miss Etta Vieira. Charles DeFreitas was the cashier.

The Courier stands at the head of the list in the "I told you so" class.

The Russian peace envoys are the tallest, but it is not always true that the longest pole knocks the persimmon.

In the language of the prize ring, the Russians have decided to counter to the Japanese proposals. We hope there will be no rights and lefts exchanged.

Over in Manchuria Oyama and Linovitch are getting ready for a grand shaking of hands ceremony. Let the peace envoys do nothing to mar the preparations for this clasp of digits.

"Reimbursement" sounds better than "indemnity," and if the use of the term will be a means of securing "peace with honor" there will probably be a general acquiescence on the part of the interested parties and a motion to make it unanimous would seem to be in order.

If anybody thinks Illinois is losing prestige as an agricultural state he should look up the latest year book of the department of agriculture, says the Monmouth Atlas. There he will find that Illinois raised 41,000,000 bushels more corn, and received \$24,000,000 more for the crop than any other state.

From the way President Roosevelt swung the big stick at Wilkesbarre it will soon be in order to call it the magic wand. After refusing to listen to Cardinal Gibbons and John Mitchell the miners accorded the president marked attention and his big chunks of oratory seemed to hit the mark every time.

President David Felmley: "It may be true that the irrigated lands of the west will and do, raise larger crops of corn and wheat, as well as other grains, than do our farms in central Illinois. This state of affairs, however, is not likely to continue forever, probably not more than a decade. Irrigation, like heavy, soaking rains, leaches from the soil some of the most important constituents. For instance, constant irrigation for some years will drain off into the streams, rivers and finally into the ocean, the nitrates that are needed to give good crops. Constant heavy rains will do the same thing, but irrigation is every year and heavy rains are not. The best crop years are those, as a rule, with dry winters, springs and falls, but, of course, with enough rainfall in the summer to mature the crops. No nitrogen, or none of the nitrates, are thus washed away from the soil."

AT PORTSMOUTH.
Drinking highballs, listening to polyglot talk on the piazzas, playing bridge and dancing the two-step are said to be among the side issues at Portsmouth, where the peace conferences are in session. The sublime and the ridiculous are meeting at this New Hampshire town. Here is the spectacle of the greatest minds of two nations in mental conflict over an issue that affects the destinies of millions, here life and death hung in the balance; here hinges the solution of a problem that will alter the map of the world.

Then there is another spectacle. Here also is the nouveau riche gorgeously apparelled, plebeian stock trying to assume patrician airs, with pockets full of money and heads devoid of brains, seeking recognition and courting attention at every turn. Gay and frivolous, pretending to evince the keenest interest in the deliberations in progress, and without sense enough to understand the terms of the conference when concluded. Here the extremes have met. It is a motley throng and certainly would afford an interesting study to the keen of intellect. Here is a chance to witness history in its very making, for every movement on the part of the envoys is like the weaver's shuttle putting in new thread. It goes to make up the component parts of the conference which, when fitly framed together and given to the world, will be but the summarization of all that has taken place.

We may laugh and even scorn the curious who have been attracted to this quiet city, but a drama is there being enacted that would be worth a visit from the most learned and even the illiterate, whose means have made an access to this circle possible, will gain from idle glances and hearsay remarks a fund of information that will make them welcome guests at any literary circle for years to come. It is a rarefied atmosphere that surrounds Portsmouth. Even the clerk who sold M. Witte and Baron Rosen bathrobes has his name in the Associated Press dispatches and the end is not yet.

ALL OVER THE HOUSE.

Directions For Making and Freezing Ice Cream.

To make fine, smooth ice cream, it is best to use pure, thin cream without additions of any kind, except the sugar and whatever flavor you choose to give it. If you cannot get the thin cream, thick cream will do very well, if you thin it with fresh milk. The cream should be thoroughly chilled in an open jar before you start to freeze it. It will require about six ounces of sugar to the quart to sweeten it. The flavor, whether extract or crushed fruit, should not be added to the cream until it is about half frozen. While freezing, the cream should be constantly stirred, but not too fast. By using plenty of salt and breaking the ice very fine you can freeze a gallon of cream in about ten minutes after it is chilled. The cream must not be more than half full to start with, so that it will have a chance to beat up.

Care of Needles and Scissors.

In a very damp locality, where steel rusts quickly when exposed, it is wise to keep needles in general use stuck in oiled flannel and the sewing tools should be put in the driest part of the room, away from open windows. Scissors are sometimes hopelessly rusted by leaving them near an open window overnight. Iron or steel articles not in use may be covered with a thin layer of vaseline. Rust spots may be rubbed off with emery or oil or covered with kerosene or sweet oil for some time and then rubbed hard. In very obstinate cases, touch the spots first with muriatic acid and then with ammonia, to neutralize the acid; finish with emery or bath brick.

To Make Mead.

Beat to a stiff froth the whites of three eggs, and beat into them six gallons of water, sixteen quarts of strained honey and the yellow rind of two lemons, peeled very thin, then cut into strips. Boil hard and steadily for a little less than an hour, skimming frequently. Put into a tub and let cool. When blood heat, add three tablespoonfuls of good yeast. Cover closely. When fermentation has ceased, strain out the lemon peel, put this in the bottom of a wooden keg, and pour in the mead. Let it stand for six months, then bottle it.

To Tell Pure Coffee.

A portion of ground coffee may be placed in a bottle half full of water and shaken. The bottle is then placed on the table for a moment. Pure coffee contains a large amount of oil, by reason of which the greater portion of the sample will float. All coffee substitutes and some particles of coffee sink to the bottom of the liquid. A fair idea of the purity of the sample can be determined by the proportion of the sample which floats or sinks.

To Sweeten Butter.

Butter, either fresh or salt, possessing a disagreeable flavor may be rendered perfectly sweet by the addition of a little carbonate of soda. The proportion is two and a half drams of carbonate of soda to three pounds of butter. In making fresh butter the soda is to be added after all the milk is worked out and ready for making up.

Sauce For Boiled Rice.

A delicious sauce to serve with boiled rice is made from a pint of tomatoes stewed and strained. Then thicken with two tablespoonfuls of flour and two tablespoonfuls of butter. Season with salt, pepper and chopped parsley. If curry is liked a teaspoonful of the powder may be added.

To Remove Warts.

Warts may be removed by wetting once a day with the milky juice that flows from the stalk of dandelion. Let this dry in thoroughly. Another remedy is to moisten the finger with saliva from the mouth every morning on waking. Apply the finger to the wart and allow the moisture to dry in.

Cleaning Enamel Paint.

Enamel paint must be washed with clean warm water, using very little soap or sand on the finger marks or soiled places; then rub vigorously with a flannel cloth until the wood feels hot, and the luster will be restored.

Coffee Stains on Wool.

Coffee stains on a woolen blouse may be removed by the use of glycerin. Rub it over the stain and then wash the place with lukewarm water, and iron the material on the wrong side till it is dry.

The Child's Hair.

Don't curl or plait a child's hair tightly if you want it to grow long and thick. Many a scanty crop of tresses in later life is due to straining the hair while the child is growing.

THE COURT HOUSE

Multitude of Ways in Which the Temple of Justice Acts as Magnet on the People—Many Interests Center There.

Bloomington Pantograph: Most people, when they look at the McLean county court house, say or think that is a pretty building, but very few think of the extremely close connection between this building and the lives of every resident of the county. The shadow of this court house falls upon him at his birth and he is never wholly removed from its influence until he dies, and even then his heirs must enter it in order to settle up his estate, if he leaves any.

When one is born his birth certificate must be registered at the court house. Should the child's parents die, he must enter the court house to have a guardian appointed. Should he inherit property, again the court house must be visited. Should he become insane he is taken to the court house for a hearing. Should it become necessary for any purpose to transact any business in the probate court, that too is situated in the court house. Is a trustee to be appointed, this is done at the court house. Should this child, now grown to man's estate, be elected to any township or county office, again must he appear at the court house. If he be appointed notary public, his appointment becomes a matter of record at the court house.

When this chaparrarries, he must apply for a wedding license at the court house. Should he be unfortunate enough to ask for a divorce, again it is at the court house that he must appear. Should he be a criminal, he certainly must come before the sheriff or judge and answer. Should he have children born to him their birth becomes a matter of record at the court house. Should our friend become a physician, or an architect, or a veterinarian, or a stationary engineer, he must be recorded at the court house. If admitted to the bar, he must go to the court house for his certificate of good moral character. Tax paying ends at the court house, although one does not necessarily go to the court house to pay them, except one comes in too late to hand them to the township collector, when the court house once more casts its shadow across one's life. Law suits, except when settled before a justice of the peace, are conducted at the court house and all legal papers are filed there. Should he belong to a corporation his name must appear on the books at the court house.

When he dies his will is filed at the court house and his possibly sorrowing widow appears there, as do his heirs, for the purpose of settling up his affairs. So from cradle to the grave, the shadow of the court house is never absent. If the end of life be a violent one, the coroner will "sit" on the remains and tell what disposition is to be made of them.

If somebody could just harvest the "idea" crop that is now being sown at the various Chautauques of the country and classify the result, the product would be worthy of a place in the Smithsonian institute.

BIRTHDAY SURPRISE.

A surprise party was given in honor of Joseph Roberts Friday evening at his home on South Fayette street, the occasion being his birthday. The evening was most pleasantly spent with games and various other amusements. Prizes were awarded to Miss Corrine Magee and Miss Vada Yost. Delicious refreshments were served.

Those present were: Misses Lucille Burns, Lucinda Hughes, Lydia Snyder, Effie Burns, Silva Swanson, Vada Yost, Corrine Magee, Flora Hughes, Maggie Lonergan, Catherine Kehoe and Mrs. T. H. Burns; Messrs. Floyd Yost, William Schildman, Edward Hoffman, William Roberts, Otto Willmeter, John Roberts, James Roberts, Ellis Mann, T. H. Burns and Miland D. McGruder, of Cairo.

CARTHAGE NOT ANXIOUS.

The Carthage Republican does not want an electric line connecting with Keokuk and says that Carthage people have no business there, excepting to visit. The following mention is made of the proposed line by that paper:

"Chicago promoters are figuring on extending the Keokuk & Hamilton electric line to Carthage in the near future, and were over the proposed line in a carriage last week.

"Carthage does not need an electric line to Keokuk. Our people have no business in Keokuk aside from what social feature there is in it. What Carthage does want is an interurban road to Plumb Brothers' plant and on north through Burnside and Durham, tapping that rich country now shut out from us by reason of the Long creek hills. The electric line to Nauvoo and Plymouth will then follow in easy sequence."

VERDICT OF MURDER.

St. Joseph, Mo., Aug. 11.—Sensation followed sensation at the inquest over the remains of Laura Humble yesterday, and it is possible that several arrests will be made.

Laura Humble, 15 years old, died Tuesday night from morphine poisoning. It was supposed at the time to have been a case of suicide, but the coroner's jury found that the girl had been murdered, although it did not attempt to fix the blame.

Her mother, Mrs. Hattie Humble, is being held at the police station, pending a further investigation. Her daughter, Helen Humble, of Fort Scott, Kan., testified that her mother had tried several times to poison members of the family. Laura Humble will be buried in Newton, Kans., her former home, to day.

ELOPED WITH TRAMP.

Sterling, Ill., Aug. 11.—Mrs. Elizabeth Dent, matron at the Bureau county almshouse, was so impressed by the appearance and manners of Charles Croker, a tramp, whom she had known five days, that she eloped to Chicago with him and they were married there. Word came back from the couple that they are happy, and that the position at the poor farm may be considered vacant.

VETERAN REPUBLICAN BURIED.

Des Moines, Aug. 11.—The funeral of the late Elford Preston, aged 75, the last survivor of the twenty men who met in Philadelphia May 23, 1854, and organized the Republican party, took place to day in Sumner, Iowa.

RUHLIN VICTOR IN TAME FIGHT.

Colma, Cal., Aug. 11.—Gus Ruhlkn knocked out Jimmie McCormick in the eighteenth round. The bout all through consisted mainly of sparring and clinching. Very few effective blows were struck at any time.

CONSUMPTION THREATENED.

C. Unger, 211 Maple street, Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me and I have not been troubled since. Sold by J. A. Obermeyer, City drug store."

ANDREWS' RAIDERS

Reunion of Survivors Will Be Held at Chattanooga Sept. 17-19—Their Feat Was a Marvel of Valor.

An incident which will be of unusual interest all over the country will take place during the regimental reunions at Chickamauga Park and Chattanooga, which are to be held Sept. 17-19, in the reunion of the survivors of Andrews' raiders, who, on the morning of April 12, 1862, ran off with the engine, "General," which now has a resting place in the union depot at Chattanooga.

The N. & W. railway has made arrangements to bring all the survivors of that picked squad of men to Chattanooga on that date. It will be seen from the following list that the men will come from a considerable distance to attend the reunion, which will be a unique occasion.

The survivors of the eight men who escaped from the military prison at Atlanta were: William W. Brown, a former member of Company E, Twenty-first Ohio volunteer infantry, and now a resident of Stryker, Ohio; John R. Porter, of the same regiment, Company G, and now residing at Windfall, Ind.; Wilson W. Brown, likewise of the Twenty-first Ohio, Company F, and who now lives at Blissfield, Mich.; Daniel A. Dorsey, formerly of the Thirty-third Ohio, Company H, and now living at Enid, Okla.; Jacob Parrott, of Kenton, Ohio, formerly a member of Company K, Thirty-third Ohio, and William Bensinger, of McComb, Ohio, who belonged to Company K, Twenty-first Ohio, were among the number paroled.

The conductor of the train at the time of the raid, Capt. W. A. Fuller, now a resident of Atlanta, and who, with Anthony Murphy, are the survivors of the pursuing party, will also be present.

The episode which the reunion will commemorate was one of the most daring of the many exploits which fill the pages of a history of the war between the states.

On the morning of April 12, 1862, Capt. W. A. Fuller left Atlanta in charge of the passenger train on the Western & Atlantic railway. When he reached Marietta a party of strangers, dressed in citizens' clothes, boarded the train and paid their fares to different points. They claimed to be refugees from the Yankee lines joining the confederate army, but were disguised soldiers, volunteers from Sill's brigade, Mitchell's corps, U. S. A., commanded by James J. Andrews, a citizen of Flemingsburg, Ky.

At Big Shanty the train stopped for breakfast, and most of the passengers and train crew left the train. The passengers had taken their seats at the table, Captain Fuller facing the train. He saw through the window some strangers get on the engine in an excited manner and start off rapidly. He remarked to his engineer, Jeff Cain, and Anthony Murphy, then foreman of the Western & Atlantic shops, that "some one who has no right to do so has gone off with our train." All three arose and hurried out of the house just as the engine passed out of sight.

Captain Fuller, Murphy and Cain commenced pursuit on foot. They soon secured a handcar, and, in spite of the obstructions placed on the track by the raiders, made rapid progress. At Etowah they found the engine "Yonah," and the pursuit then was at such a rapid pace that serious damage to the railroad by the raiders was impossible.

The "General" was abandoned by the raiders at a point about half way between Ringgold and Graysville, on account of lack of fuel and the close pursuit of Fuller and his party. When the fugitives abandoned the engine their leader said: "Every one take care of himself," and they left in squads. Four of them were run down in the fork of the Chickamauga river at Graysville, and one was forcibly persuaded to tell who they were. The militia, mounted on fresh horses, scoured the woods that afternoon, and in a few days the last of the fugitives were captured. Later there was a trial by military court, and eight of the number were executed in Atlanta as spies, six were paroled to City Point, Va., and eight escaped from prison in Atlanta.

The object of the raid was to burn the bridges on the line of the Western & Atlantic railroad and thus cut off the confederate army from its base of supplies. There were twenty-two men engaged in the enterprise, twenty from Ohio and two from Kentucky. They were to receive \$80,000 in the event of success. Prominent among the pursuers were: Smith, Steve Stokely, Peter Bracken, F. Cox, A. Martin and H. Haney.

The survivors of the Andrews' raiders have erected a monument in the Chickamauga national park to the participants in the raid. Two monuments with tablets have also been erected by the spot where the "General" was captured and the other where it was abandoned. A monument has also been erected in front of the "General" where it stands to day as a monument to American valor. On top of the monument erected in the park is a miniature representation of the "General."

A LITTLE NONSENSE.

She Had Pie For the Lady Who Was Hurt, but no Whisky.

Last fall an English woman of letters was staying, as the guest of an elderly lady, at a country house in western Massachusetts. While they were driving one afternoon they had the misfortune to meet the omnipresent automobile at a sharp turn of the road. The horses, being spirited, shied, dashing the carriage against a tree and throwing its occupants out.

The Englishwoman picked herself up uninjured, but was horrified to see her aged hostess lying on the ground unconscious. Running to a nearby farm house, she knocked for some time before she finally succeeded in bringing a sunbonneted woman to the door.

"A lady has been hurt—thrown from a carriage. She is lying down there in the road. Can you give me some whisky for her?" cried the visitor in breathless anxiety.

"Well, no. We don't never keep no whisky," said the native born after some deliberation. "Would the lady like a piece o' pie?"—Lippincott's Magazine.

Nothing Between.

"I thought your doctor ordered you to take your medicine after meals, not before, Mr. Boarder?" said Mrs. Starvem.

"Well," replied the poor fellow, "I can't see that it really makes much difference here, Mrs. Starvem."—Philadelphia Press.

A Need.

"What we need," said the indignant citizen—

"What we need," interrupted the cool and collected person, "is a population that will insist on voting for what we need instead of standing around telling one another about it."—Washington Star.

REFORMS IN MANCHURIA

How Japanese Soldiers Are Waking Up the Chinese.

A SANITARY REGIME STARTED.

Streets Are Cleaned, Grounds Around the Houses Drained and Roads Kept in Order—Stray Dogs Killed. How Jap Soldiers Amuse Themselves in Idle Hours.

The old and the new, the civilization of the east and the west, Chinese and Japanese living together in the same town, the one calmly introducing systems and methods upon their reluctant temporary fellow townsmen. It is curious to see these two peoples so diametrically opposite to each other living, as they are living today, under Japanese martial law, says Stanley Washburn, the Chicago News correspondent, writing from General Noguchi's headquarters in Manchuria.

The Chinese are still scarcely awake to the new conditions which have suddenly swept into their towns, and it is with a sort of dazed wonder that they see Japanese activities being carried out on every side. The houses where their most prominent citizens lived a few weeks ago are now occupied by Japanese officers. Sentries guard every street.

With mouths open in astonishment the calm and imperturbable Celestial sees a small army of Japanese soldiers at work in the streets digging ditches to carry off the rain, mending the roads, forging upon them a scheme of sanitation, cleaning their wells, turning the pigs out of the main streets and requiring them to be placed in pens.

Even the unhappy moth eaten Chinese dog has been struck in this wonderful era of reform. It is his habit to camp with his friends in the main streets, in the side streets, in the compounds (grounds around the houses), under the table, in the stable. In fact, his name is legion, and at every step one falls over this unhappy creature, the substitute for a modern garbage department. The Japanese cheerfully announced to their astonished wards that all dogs would be sentenced to death that were not properly tagged with the names of their owners about their necks.

The Chinese were still discussing the meaning of this grave problem when the day of judgment came. The next rising sun brought desolation to many happy canine homes. Few dogs were to be seen in their customary haunts, but, ah, woe, in a compound, up the street was the explanation. Two hundred canine hides were visible drying in the sun. Now every dog is labeled.

Schemes for social reforms, political reforms, taxes for keeping the roads in order and I know not how many more are going merrily forward, all in behalf of the Chinaman who finds himself being civilized before he knows it. Nearly every compound is now drained, and when it rains we actually walk in the streets instead of swimming, as we formerly did.

If there ever was a people who carry their country with them it is certainly these same Japanese. In their idle hours the soldiers build Japanese gardens. Small artificial lakes are dug and bordered with stones. Little bamboo bridges are constructed and the quaint Japanese lanterns of stone are placed about in the garden, made from the flat stones picked up by the soldiers in the country about.

In one of these gardens the soldiers of a company had built a summer house after the kind seen in Japan. Lattice-work was covered with greens and blossoms made of paper were strung on strings and dangled overhead. Indeed, in some of these places it is impossible to realize that one is in Manchuria and not back in Japan.

In all the villages of evenings the soldiers play about in the streets like schoolboys. Their officers go among them in the way which makes their relation to their men unique in the armies of the world. When an officer appears, every soldier is on his feet and at rigid "attention," with his hand at salute. Then invariably comes the soft spoken word from the officer, and the military aspect fades from the soldiers' faces, and they crowd about him, laughing and telling him their troubles. The other night I walked through the main street of one of these villages with a couple of officers.

During the walk we passed, I suppose, fifty soldiers, and there was scarcely one that went his way without a joke or a pleasant word from his superior. The result is that whenever they have the time or leisure from more rigorous duties the men fall to with a will and compete with each other in making their officers comfortable. It is in this way that nearly every officer has a little Japanese garden behind his house. One of the lieutenants told me: "I have to be very careful in giving out tasks to my soldiers, for it often happens that I have underestimated the time it will take to complete, and my soldiers sometimes overwork. The other night I set my men a task which I thought could be completed in a few hours. I forgot all about it until the next day, when I found that the soldiers had worked all night rather than disappoint me in failing to have the work finished in time."

The attitude of the Chinese to all this activity is one of dumb astonishment, yet there can be no doubt that the result of all these object lessons will be to launch the Chinese upon a new era in their social, political and moral life, for, slow as the Chinaman is to learn, even he cannot fail to appreciate the wonderful difference which the Japanese have already brought into their village life.

Finger Mark or Trade Mark— Which?

Common crackers and wafers—fingered from the time they leave the bakery until you get them in a paper bag or the Biscuit, Crackers and Wafers baked by the NATIONAL BISCUIT COMPANY and packed in a package with all their oven flavor, delicious freshness and high quality? Which will YOU have? If you want to answer this question once and for all, try a package of either of the three delights mentioned below:

Social Tea Biscuit

Just the thing to offer with an afternoon cup of tea—or chocolate—or coffee. In fact, they're good to eat most any time just for the pleasure of it. Sweet and slightly flavored with vanilla.

Butter Thin Biscuit

A crisp, light, dessert biscuit, rich and satisfying, served as something out of the ordinary. If you really want a biscuit that's particularly nice, try a package.

Graham Crackers

So different from the ordinary Graham Crackers—different in baking—different in flavor—different in packing. More palatable—more satisfying—more nutritious. Made of the purest Graham flour and baked in a manner that only the National Biscuit Company knows.

Ever after you will be guided by the In-cr-seal Trade Mark in red and white, on each end of a package, whenever and wherever you buy Biscuit, Crackers and Wafers.

FOR THE CHILDREN

How to Play Fireflies.

If it is "fireflies" that children are
amusing themselves with, they place
themselves at the playground, tak-
ing as their position either a tree,
fence, front of other not too abundant
object. Grubs and grubs would hard-
ly do in most cases, for there is usu-
ally too much of them about. There
is a great deal of chasing in the game,
and each child is safe when he can
run from one stone to another or from
one tree to another, according as he has
chosen his first position. To be able
to run from grass to grass would not
ordinarily make a very exciting chase.
While in position the players, who
are all fireflies, place their hands over
their eyes and constantly open and
close the latter in imitation of a fire-
fly's opening and closing his wings
over his glowing body. The child that
has been chosen chaser takes a firefly
while his hands are open as a signal
that he is to run to a new position. At
least the chaser tries to tap at this
time, but should the blow chance to
fall when the hands are closed the
runner is obliged by the other flies, each
one of whom administers a slight cuff
to him for his clumsiness, being careful
not to hit hard or to strike the head.
The tap being properly given, the
chaser strikes runs for a goal similar to
his own. If he reaches it, he is safe;
if he does not and is caught he be-
comes chaser himself. Should any
player be so unfortunate as to capture
no one while taking this part he is,
after a reasonable number of efforts,
allowed to call out "Fireflies!" Every
one must seek a new position at that
call, and in the general confusion that
will result some one is sure to be taken.

MAY REFORM THE PAY ROLLS

Civil Service Commissioners Feel Salaries of Eleemosynary Institutions Not Rightly Distributed—Pay of Attendants May Be Increased.

Springfield, Aug. 11.—If the state civil service commission is able to carry through the plans it formulated at its first meeting, there is promise of a marked improvement in the conduct of the state charitable institutions. The board believes the fault with the asylums for the insane especially and with other eleemosynary institutions in some degree is not that too much money is paid for salaries but that it is not rightly distributed.

An examination of the pay rolls showed that the attendants whose character and capability the success of the institutions in great part depends are paid exceedingly small wages. In some instances not more than \$18 and \$20 a month.

On the other hand, in all the institutions there are some employees classed largely as "assistants," whose main duty appears to be "draw" pay which comes to them. The commissioners believe that if these seemingly useless persons could be dropped and the money used to give the attendants better pay a higher class of help could be secured and the institutions show better results.

There will not be another meeting of the commission until after hay fever time. Commissioner J. Stanley Brown is afflicted with that disease and the others do not care to go out of the state to find him.
